

The Home Income Guide

5 PLATFORMS AVERAGING ME
\$8,000 - \$10,000+ A MONTH
FROM THE HOME I STILL LIVE IN

no second property · no moving out · no partner required

STR Units - Airbnb/VRBO

Event & Shoots - Peerspace/Giggster

Pool/Yard Rental - Swimply/Sniffspot

Platform 1: Airbnb and/or VRBO

Rent your spare bedroom or whole home to short term guests — the most well known home income platform.

WHAT YOU NEED

- Private or semi-private space with a quality bed
- Clean bathroom access — dedicated is premium, shared is okay to start
- Smart lock or lockbox — essential for contactless check-in
- Hotel grade linens — minimum queen bed, 2 sets of sheets
- WiFi — non-negotiable
- Mini fridge or kitchenette access

WHAT IT PAYS

\$1,500 - \$3,000+ per bedroom/month.

\$50-\$300+ per night depending on market, space size, and amenities

BIGGEST MISTAKE

Setting a flat rate and forgetting it. Use dynamic pricing — weekends, holidays, and local events command 20-30% more.

STEPHANIE'S TIP: "Most hosts underprice, under-describe, and under-photograph their space. Your listing is your storefront. Spend the most time on your hero photo — it's what earns the click or loses it."

Platform 2: Peerspace

The physical setup is the foundation everything else is built on. You don't need a major renovation — you need intentional space design that creates clear separation between your life and your guests' experience.

WHAT YOU NEED

- **Photogenic, well-lit space — natural light sells shoots**
- **Parking for 2-6 vehicles — crew and client parking is critical**
- **Clean styled interiors — remove personal clutter**
- **Easy bathroom access without entering private areas**
- **WiFi and ideally a sound system**
- **Outdoor space if applicable — significantly increases booking types**

WHAT IT PAYS

\$150 - \$2,000+ per booking \$50-\$500+ per hour.

A 3-4 hour booking generates \$150-\$2,000+ depending on market and amenities

BIGGEST MISTAKE

Not listing your outdoor space. If you have a deck, patio, or yard — it dramatically increases your booking types and rate.

STEPHANIE'S TIP: "Don't underestimate what simple amenities or aesthetic improvements can do for improving your offering to get a higher hourly rate. After I built the deck in my backyard I started getting twice as many bookings."

Platform 3: Giggster

Rent your home to film and photo production companies — commercials, music videos, content creation, and brand campaigns

WHAT YOU NEED

- **Visually interesting or versatile spaces**
 - **Parking for crew vehicles — productions arrive with equipment**
 - **Flexible access and availability — early access often needed**
 - **Unique architectural details, outdoor spaces, or distinctive aesthetics**
 - **Ability to accommodate larger groups than typical events**
-

WHAT IT PAYS

\$100 - \$750+ per day Production budgets for location fees are significantly higher than event budgets — single bookings can generate serious income.

BIGGEST MISTAKE

Not enabling instant book from day one. It increases your algorithmic ranking significantly on the platform.

STEPHANIE'S TIP: "Not listing on both Peerspace AND Giggster simultaneously. They serve different bookers. Double your visibility with zero additional effort."

Platform 5: Sniffspot

WHAT YOU NEED

- **Fully enclosed fencing — completely non-negotiable. No fence, no listing.**
 - **Clean yard space — pick up before every booking**
 - **Fresh water station for dogs**
 - **Shade options — covered area or large trees**
 - **Side gate access so guests never enter your main home**
 - **House rules — max number of dogs, cleanup expectations**
-

WHAT IT PAYS

\$200 - \$800+ per month \$8-\$25+ per hour depending on yard size, location, and amenities.
Minimal ongoing effort after setup.

BIGGEST MISTAKE

Assuming your yard isn't good enough. If it's fully fenced and clean — you qualify. Setup takes 15 minutes.

STEPHANIE'S TIP: "If your yard is already fully fenced you are 90% of the way there. Dog owners are some of the most appreciative and loyal guests across any platform I use."
