

The Home Income Snapshot

Whether you own or rent your property, you have no idea what it could be making you.

Let's fix that.

Step 1: Film Your Walkthrough Video

Record a walkthrough of your entire property. Aim for 5-10 minutes. Here's exactly what to film:

- Every room — including closets, storage areas, and spare bedrooms
- Outdoor spaces — backyard, front yard, patio, driveway, and garage
- Pool or hot tub if you have one
- Any unique features — murphy door, studio space, gym, ADU, guest house
- The view from key windows
- Any existing furniture or setup that would stay for guests

Step 2: Complete the Intake Form

A short 6 question form that helps me understand your goals and comfort level:

- What is your monthly mortgage or rent payment?
- What is your comfort level with guests in your space — low, medium, or high?
- Have you ever rented out your space or any asset before?
- What is your primary income goal from this property per month?
- What is your ideal timeline to launch your first income stream?
- Where are you located? (optional for monthly income estimate)

Step 3: Submit Everything

Send your walkthrough video and completed intake form to:

- **Email:** hello.stephaniehuynh@gmail.com
- **Subject line:** Home Income Snapshot — [Your Name]
- Video can be sent via Google Drive link, Dropbox link, or WeTransfer
- Form responses can be submitted directly in the email.
